Wymoo® International

KNOW WHAT TO DO. KNOW WYMOO.

Global Background Checks & Private Investigators
Investigators on the ground in Over 100 Countries

Why Choose Wymoo?

With highly trained professional investigators on the ground in over 100 countries, no other investigation company offers the coverage and combined experienced of our global team. We are not a generic database search company. We're on the ground where you need us. We speak the language, we have access to local records, and we obtain evidence so you can make an informed decision. We minimize your risk for fraud.

Global Services Offered

Wymoo International is a full service private investigation company, a one-stop shop for all your verification and investigation needs. We offer comprehensive background checks, international due diligence, asset searches, surveillance, pre employment screening, and private investigations. Cases are customized to meet the needs of our client, and all services are strictly confidential.

Our Background Checks

A real background check is an actual investigation. Checking criminal records alone is not a true background check, and is not a prudent method to mitigate your risk. At Wymoo®, we verify individuals and companies on a comprehensive scale, and our professional background checks may include name and date of birth verification, address verification, criminal and court records, marriage records, employment and education verification, passport or ID verification, document verification, reference checks, fraud screening and more. All cases are discreet and customized to meet the specific needs of our client. We properly minimize your risk.

We offer many types of services, including:

- Employment Background Checks
- Company Verifications
- International Due Diligence
- International Background Checks
- Dating Background Checks
- Document & Passport Verification
- Expert Private Investigations
- Asset and Bank Account Searches
A Trusted Leader

Wymoo International began operations in 2006 and is headquartered in Jacksonville, Florida, United States. We are verified by Truste, McAfee and we maintain an 'A+' Rating with the U.S. Better Business Bureau. Wymoo has been featured many times in the media, including U.S. News and World Report, Forbes, Reuters, Fox News and NBC for our work on fighting scams and fraud.

Employment Screening

If you're hiring or doing business with someone in a foreign country, you are at an increased risk for fraud. Each country is a unique challenge, with different laws, language and access to information. Many developing countries have no public records or databases that can be accessed to verify an individual or company. Proper verification requires highly trained, local investigators.

Our background check investigations for employment include much more than criminal records. After all, the majority of individuals committing fraud or crime have no previous criminal record, so this is not an effective way to mitigate your risk. Our comprehensive services typically include employment and education verification, CV or resume verification, document or passport verification, address and reference checks, criminal and court records, and fraud screening. Because we're a professional private investigation firm with investigators on the ground in over 100 countries, we have access to local records and information like no other company. We provide our clients with clear evidence and findings, so you can make an informed and profitable decision.

Each company and situation is different. Have a specific set of criteria you need verified? We can help!

Fully Customizable

We customize all of our investigations specifically to meet your needs, so we can properly minimize your risk. Not sure what you need or how to verify an individual? We can provide a quote based on your specific situation. Need some individuals vetted more closely than others? Not a problem. From light verifications to complete due diligence investigations, we have the solution.

Strictly Confidential

All services are discreet and strictly confidential. Subjects will not be contacted or made aware of any investigation, and your name and company name will never be used in the investigation, period. We respect and protect your privacy.

Fast Turnaround

Starting new cases is fast and easy. Get your quote, submit payment, and our investigators can begin your case the same day. Turnaround time for most cases is 5 to 7 days. Need an expedited investigation and results faster? Let us know.
Competitive Pricing

Quotes depend on the type of investigation, country or countries involved, and evidence to be obtained and/or verified. Our pricing for international background checks depends mostly on the country of focus, scope of investigation and volume. For our standard background check investigations, on average, these services range from $400 to $600 USD with a 5 to 7 day turnaround time. Professional private investigations and excellent service, all at a fair price. Significant volume discounts are available.

Professional Reporting

Tired of receiving computer generated reports from your so-called background check provider? Looking for a real private investigation company who will actually investigate each case, and provide clear evidence and findings to reduce your risk? All our reports are narrative in nature, well organized and written by trained investigators. Reports are emailed in PDF format on the due date.

Easy to Start

Wymoo does not require any complicated consent forms or contracts. Simply submit a Free Quote at Wymoo.com, or email one of our Lead Investigators for assistance, get your quote, and you're ready to go! Billing and payments are simple and easy, and clients can submit payment via our secure website, or pay by bank wire with monthly invoices depending on your volume. To get started, all we require is the subject's name, date of birth, data to be used for the investigation, and the country or countries of focus.

Money Back Guarantee

Still not convinced? We understand, and it's good to be skeptical. That's why we offer a Money Back Guarantee for corporate clients who try our employee screening services and employment background checks. We know our services and reports are superior to the competition, and that's why we guarantee you'll be satisfied. If not, we'll issue an immediate refund on your first case. No gimmicks, just serious client service. We're proud of the fact that nearly 60% of our new clients come from referrals and word of mouth. For new businesses looking for this service, we recommend trying us for a case or two, so you can see the quality of our work. We're very confident you will be happy with our services and reports, and we welcome the opportunity to earn your business!

*Wymoo does not conduct investigations in Florida.*
Legally Compliant

Because the legal framework, judicial system and laws (and language) vary from one country to the next, it is critical to use an investigation company with local investigators in the country or countries where you need evidence. Companies, individuals or websites offering international 'background checks' with no international presence or local investigators are not familiar with the local laws and don't speak the language, and therefore may not be in legal compliance with the foreign country.

Wymoo International has highly trained local investigators on the ground in over 100 countries.

By having trained investigators on the ground where you need us, Wymoo® conducts all international background check investigations according to local laws and regulations where we operate, so our clients do not have to attempt to decipher and comply with the complicated legal environment from one country to the next. We offer a standardized service and one-stop-shop for companies and corporate clients who need to verify individuals in many different countries.

This streamlined process enables our clients to minimize their risk, obtain valuable evidence, and make informed decisions.

Each country is completely unique, and at this time, there are no global certifications for investigation companies or companies conducting international background check investigations. The National Association of Professional Background Screeners (NAPBS), for example, is based in the United States and not relevant to private investigators operating primarily outside the U.S.

Wymoo International maintains an A+ Rating with the U.S. Better Business Bureau and is verified by McAfee.
